

BondTalk™

FROM dealvector

Think Outside the Inbox

We scrape. You think.

Distill the thousands of BWICs clogging your inbox into an easy-to-use modern web interface.

→ Cut Busy Work

A dozen emails for one bid list? There's a better way. We merge data from multiple messages into a comprehensive, unified view.

→ Find it Fast

Tell us what you want; we'll tell you when it hits. Filter for matchers, ratings, face value, manager, vintage and more. Set alerts and never miss an opportunity.

→ See It All

Store BWICs, Offers, and Markets in one place, creating a comprehensive view of the market—both today's activity and historical data.

→ Communicate Efficiently

Record notes, market color and model outputs in a sharable team view. Allows both division of labor and pooling of knowledge.

How it Works

Condense

Redundant, text-based message blasts distilled into structured, de-duplicated data.

Clarify

Web dashboard quickly surfaces portfolio matches, promising bonds, and past history.

Collaborate

Secure team view and sharing tools enable division of labor and pooling of knowledge.

FREE 30 day premium access trial > DealVector.com/BondTalk

“BondTalk saves me about 2 hours a week managing BWICs, plus makes the data far easier to analyze.”

– Senior Portfolio Manager \$6BN AUM Fund

Find it Faster

Organize your BWIC data and get better visibility with BondTalk’s robust feature set.

Excel Download
It's your data—take it with you. Analyze it in Excel.

Data Partners
View CoreLogic™ RMBS performance data & SCI's pricing database without switching screens

One Stop Shop
Get a comprehensive market view with active BWICs, Offers, & Markets accessible in a single location

Filters
Quickly spot bonds meeting your investment axes with over a dozen searches & alert parameters

Source Messages
View the source BWIC or Offer to see broker contact details and original text

Unified History
All historical activity (BWIC, Offer, Market) autolinked to active bonds

PX Talk Depth
Side-by-side comparisons shows the range of market color from brokers

Team Notes
Streamline communications in one location for sharing color, modeling results and other thoughts
